The Institute of Human Genetics of Montpellier (IGH) opens a call for applications to a Principal Investigator position in its main areas of interest, namely *Genome Dynamics, Genomics and Computational Biology, Epigenetics, Developmental Biology, Cancer* and *Infectious Diseases*.

The IGH is a world-class biology and biomedical science Institute. It provides an exciting scientific environment and benefits from core funding of the CNRS. The IGH is located in the biomedical campus Arnaud de Villeneuve, which is connected to the University Hospitals and the Faculty of Medicine. In addition to IGH, the campus includes the Institute of Functional Genomics, the Center for Structural Biochemistry and the Genopolys Science Outreach center, boasting a research area of over 15,000 m². This excellent scientific environment is supported by BioCampus Montpellier, a service unit providing a wide range of state-of-the-art facilities, including Genomics, Proteomics, medium and high-throughput Screening, Imaging, Animal Facilities and high-end instrumentation for Structural Biology and Biophysics.

Selection of candidates will be based on international scientific excellence. Particular attention will be given to innovative, high-risk projects. Selected group leaders will receive lab space and support from the IGH, in addition to assistance in the preparation of applications to calls for grants from French or European agencies.

- **Application deadline: September 15, 2014.**
- Notification to shortlisted applicants: September 30
- Interviews of shortlisted candidates by November 30
- Starting date for the position: by the end of year 2015

For more information, visit the web site: [http://www.igh.cnrs.fr/EN/](http://www.igh.cnrs.fr/EN/)

Candidates should send a CV, a one-page description of their achievements, a list of selected publications, a one-page summary as well as a five-page description of their research project. They should also arrange for three reference letters to be sent separately by e-mail to the address: ighcall2014@igh.cnrs.fr
