

European MOOC Summit

June 6-7 2013

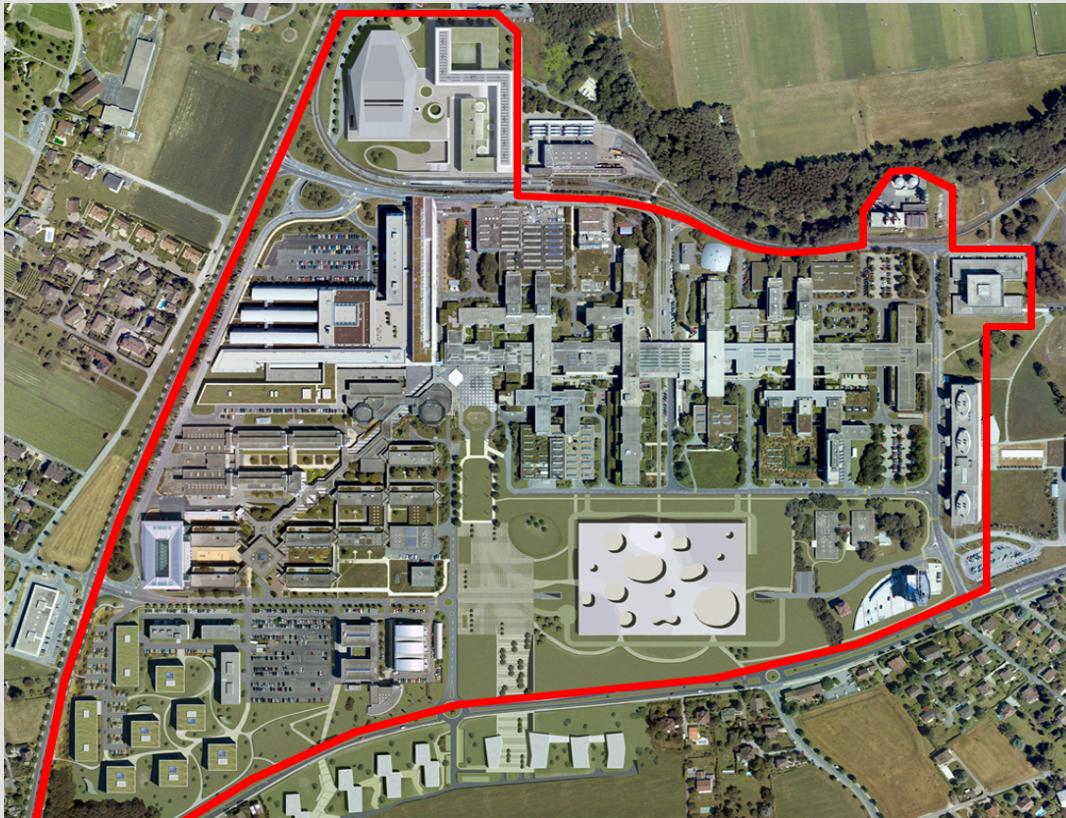

European Platform For Learning

Fast-paced development (1969-2013)

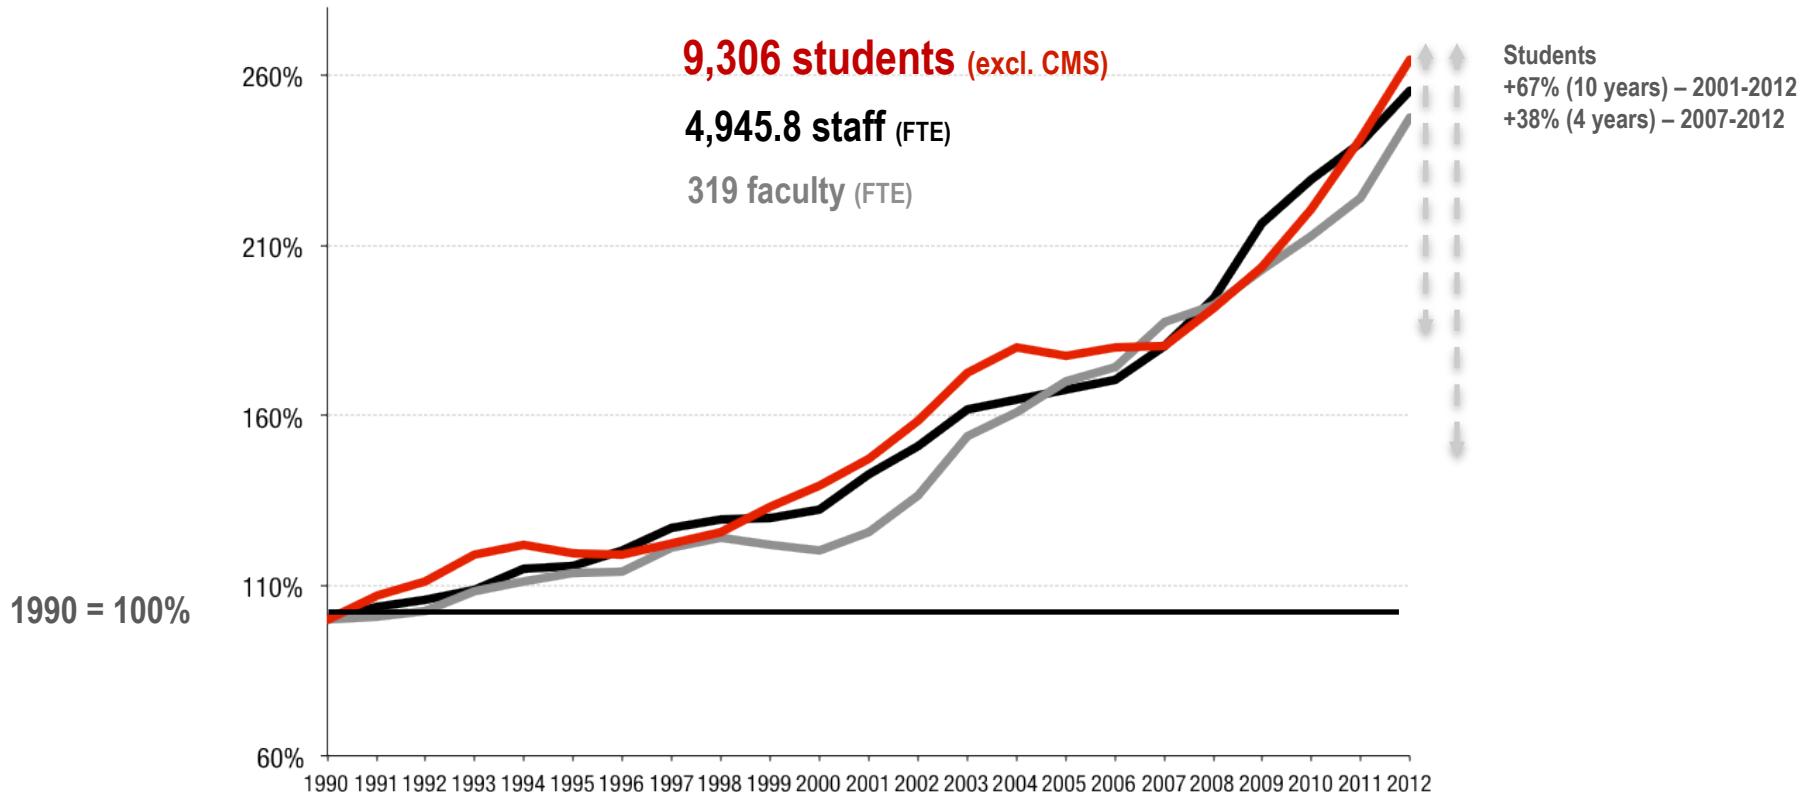

1969 ...

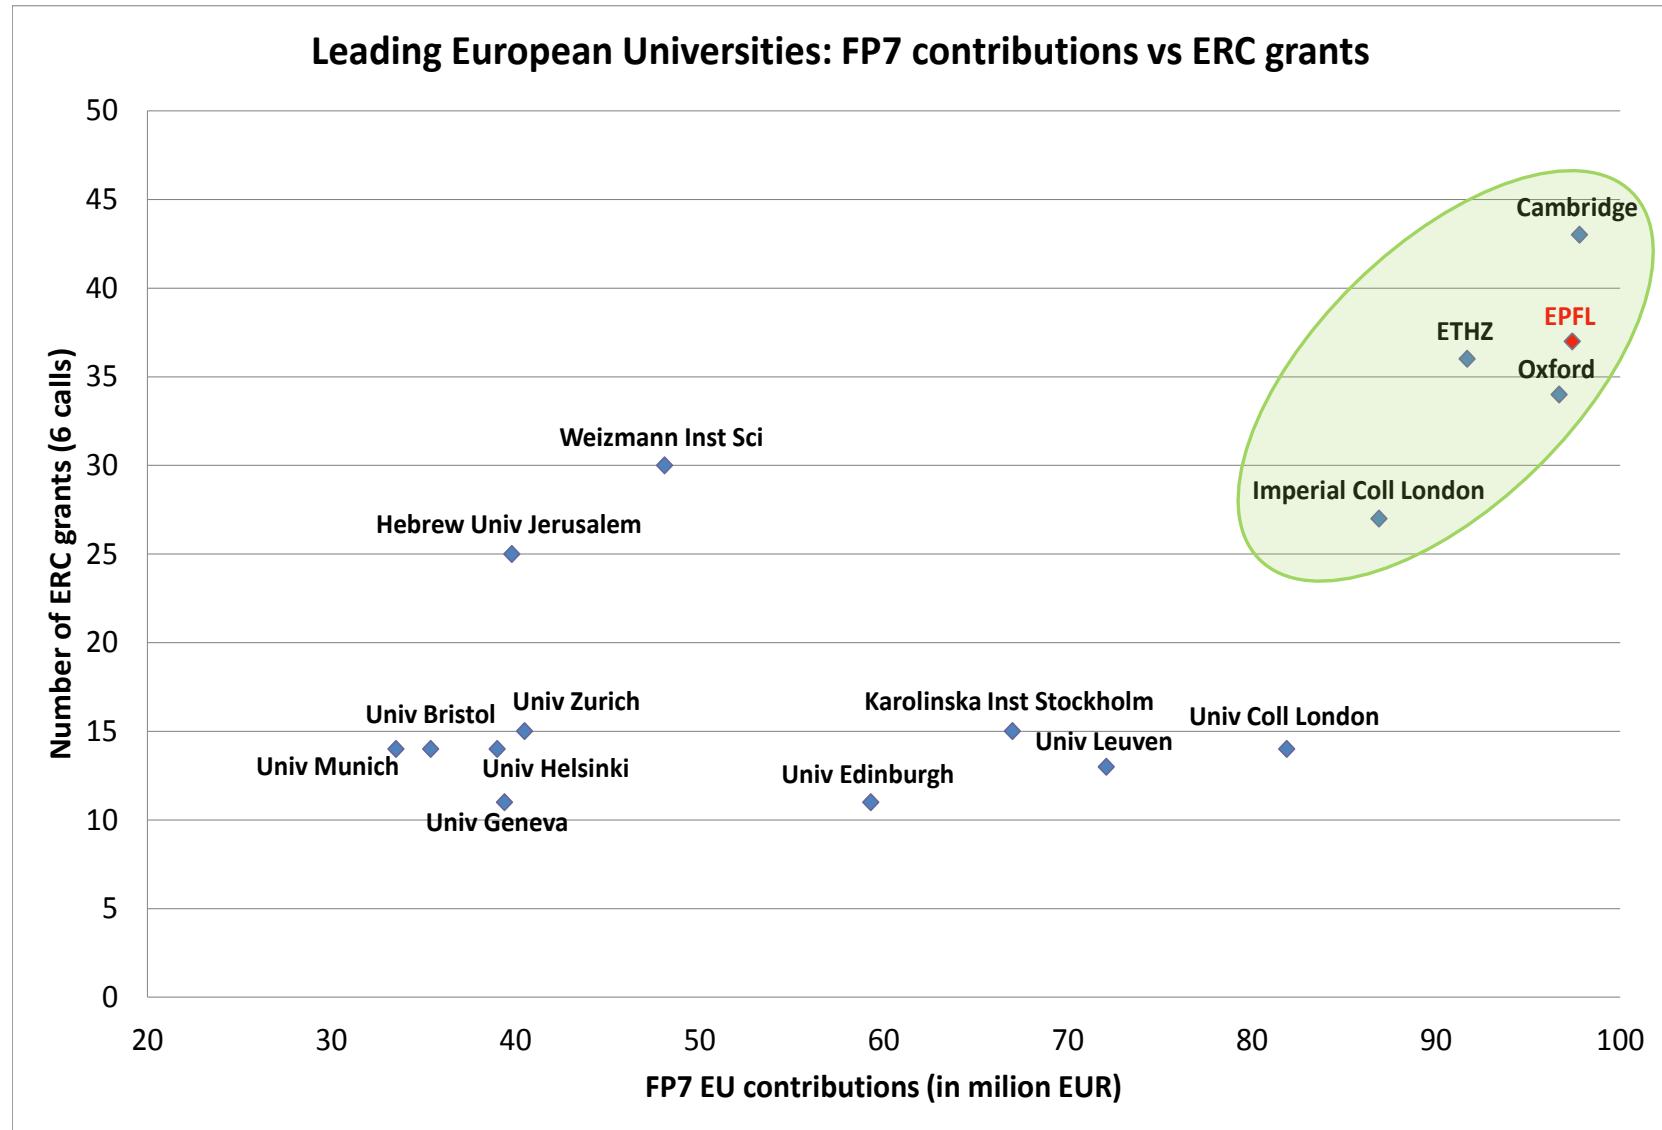

2013 Premises > 54 hectares > approx. 561,800 sq.m

Unprecedented growth since 1990 (1990-2012)

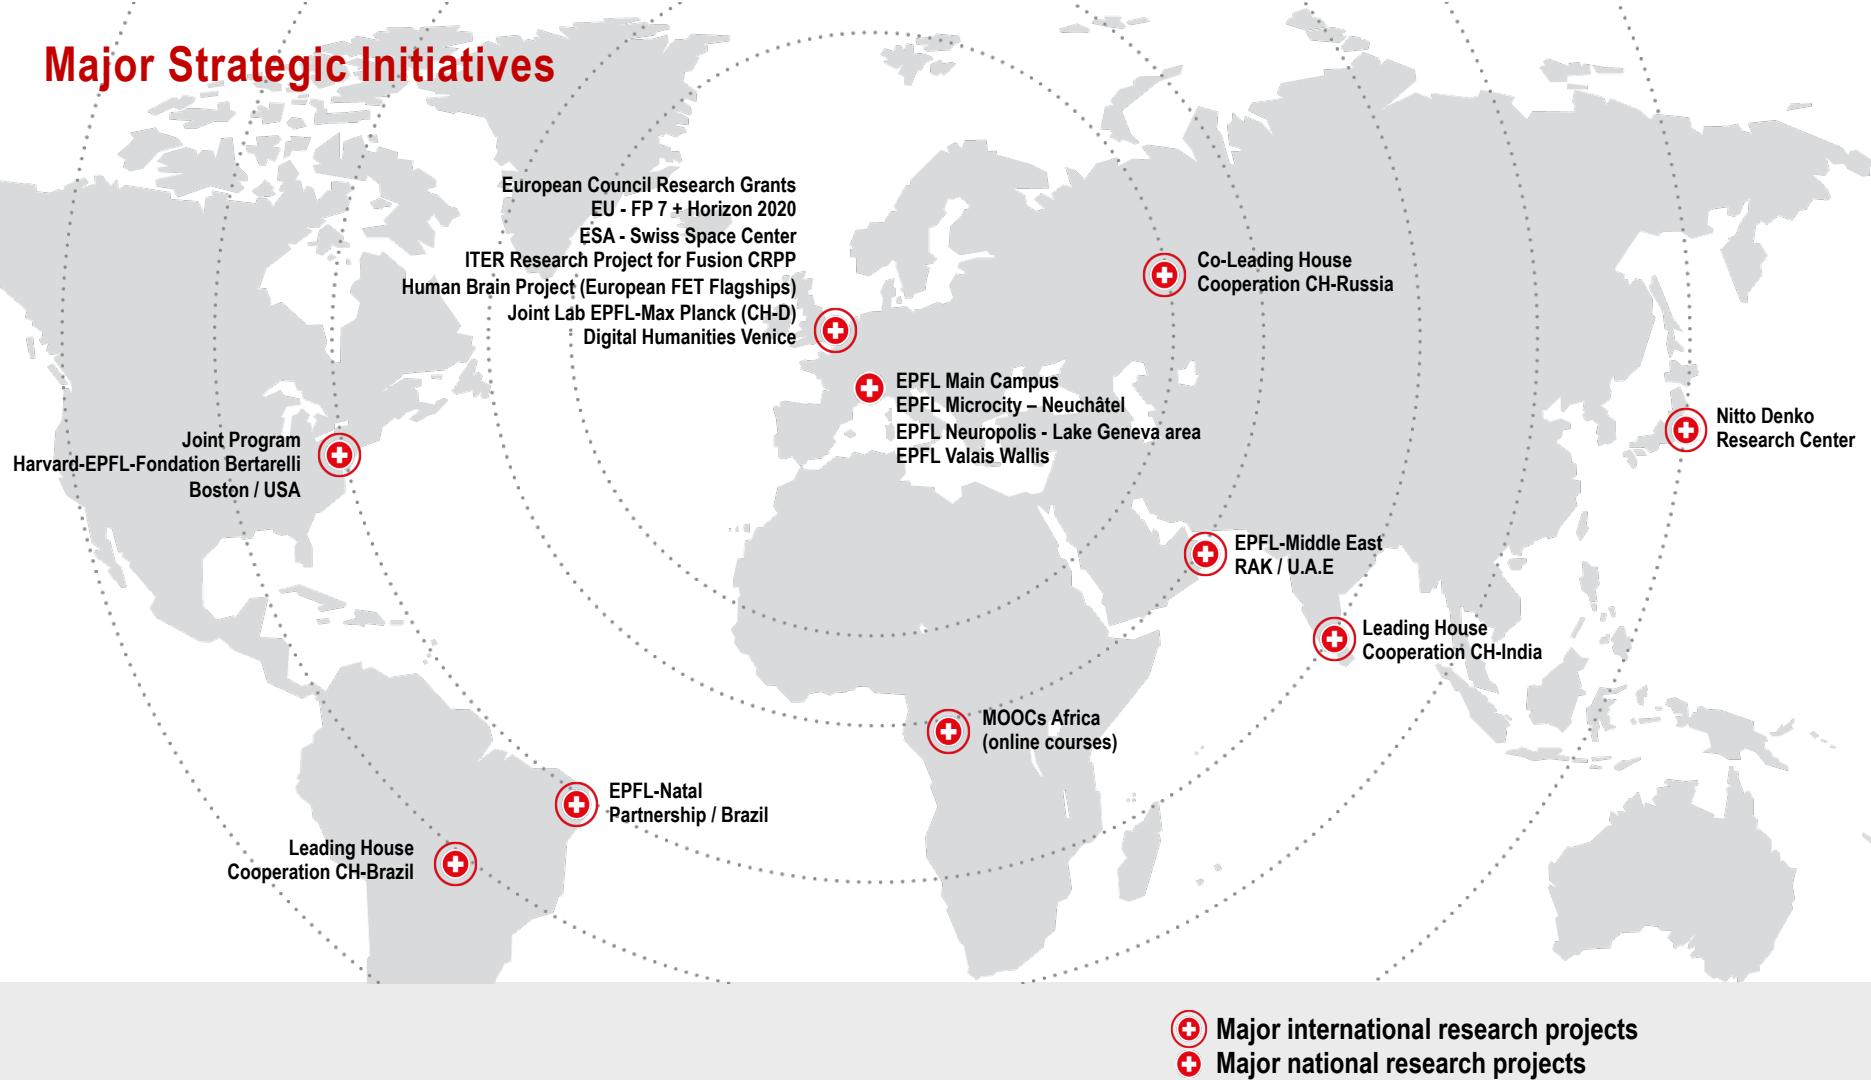

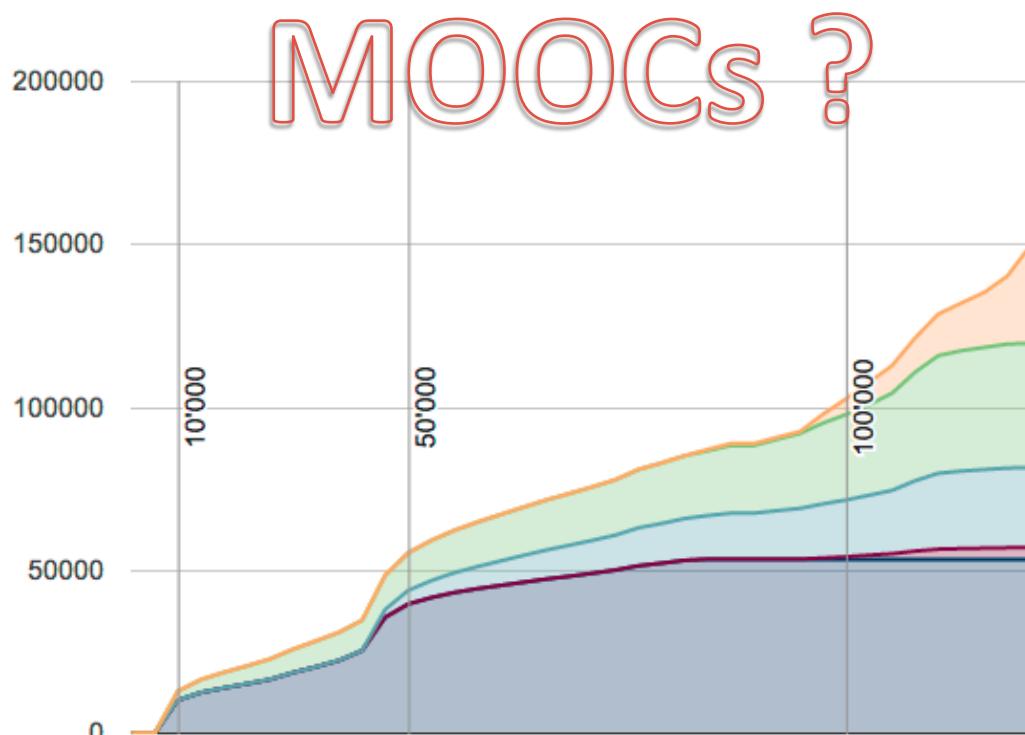

Where are we ?

EPFL National & International Reach

Major Strategic Initiatives

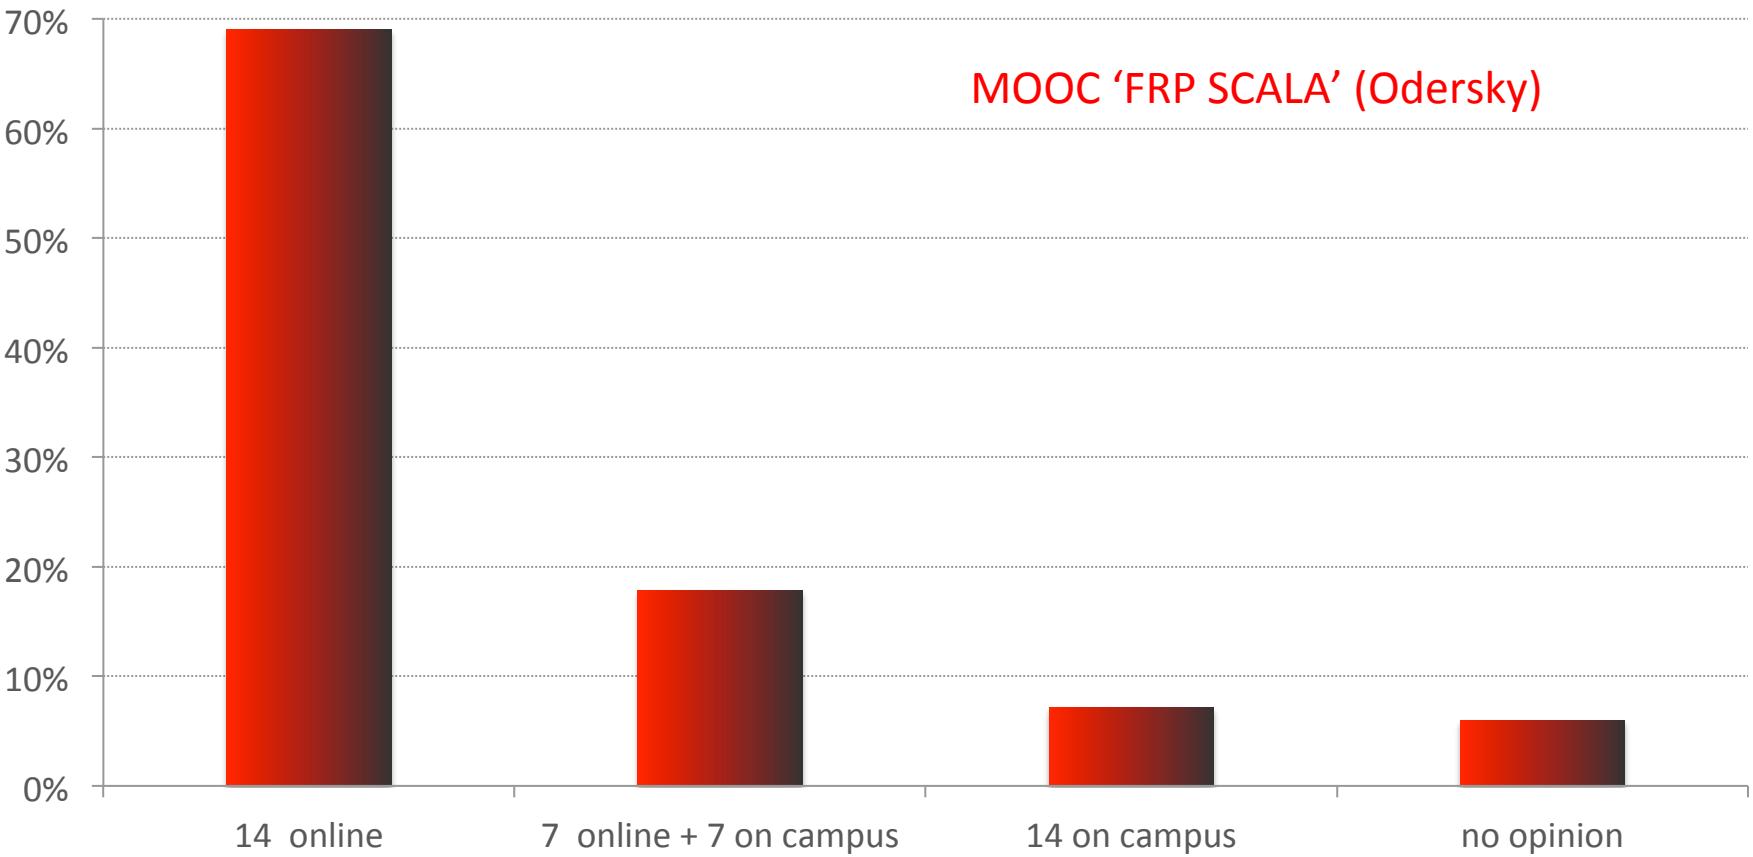

EPFL Situation

- With Coursera and EdX
- 4 completed
- 17 in the pipe
- 12/21 in French

A new Center for Digital Education

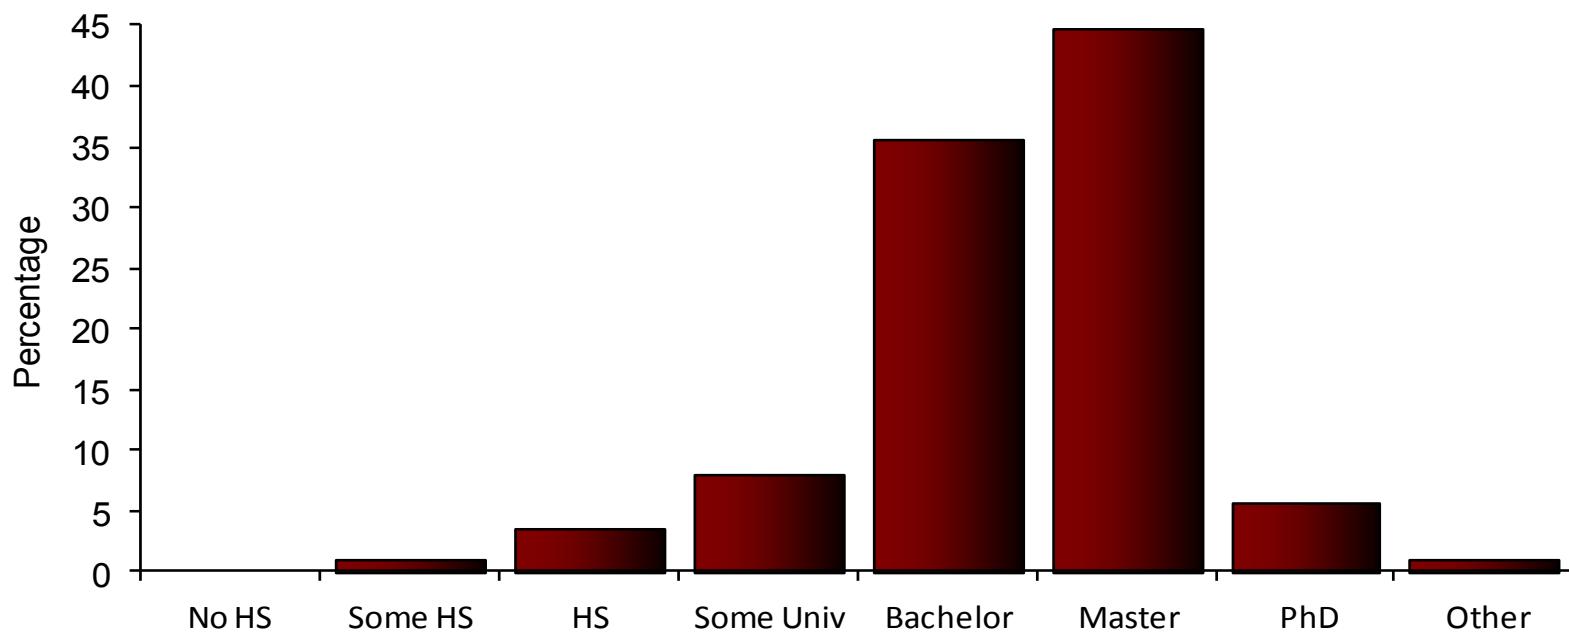

We got good news ...

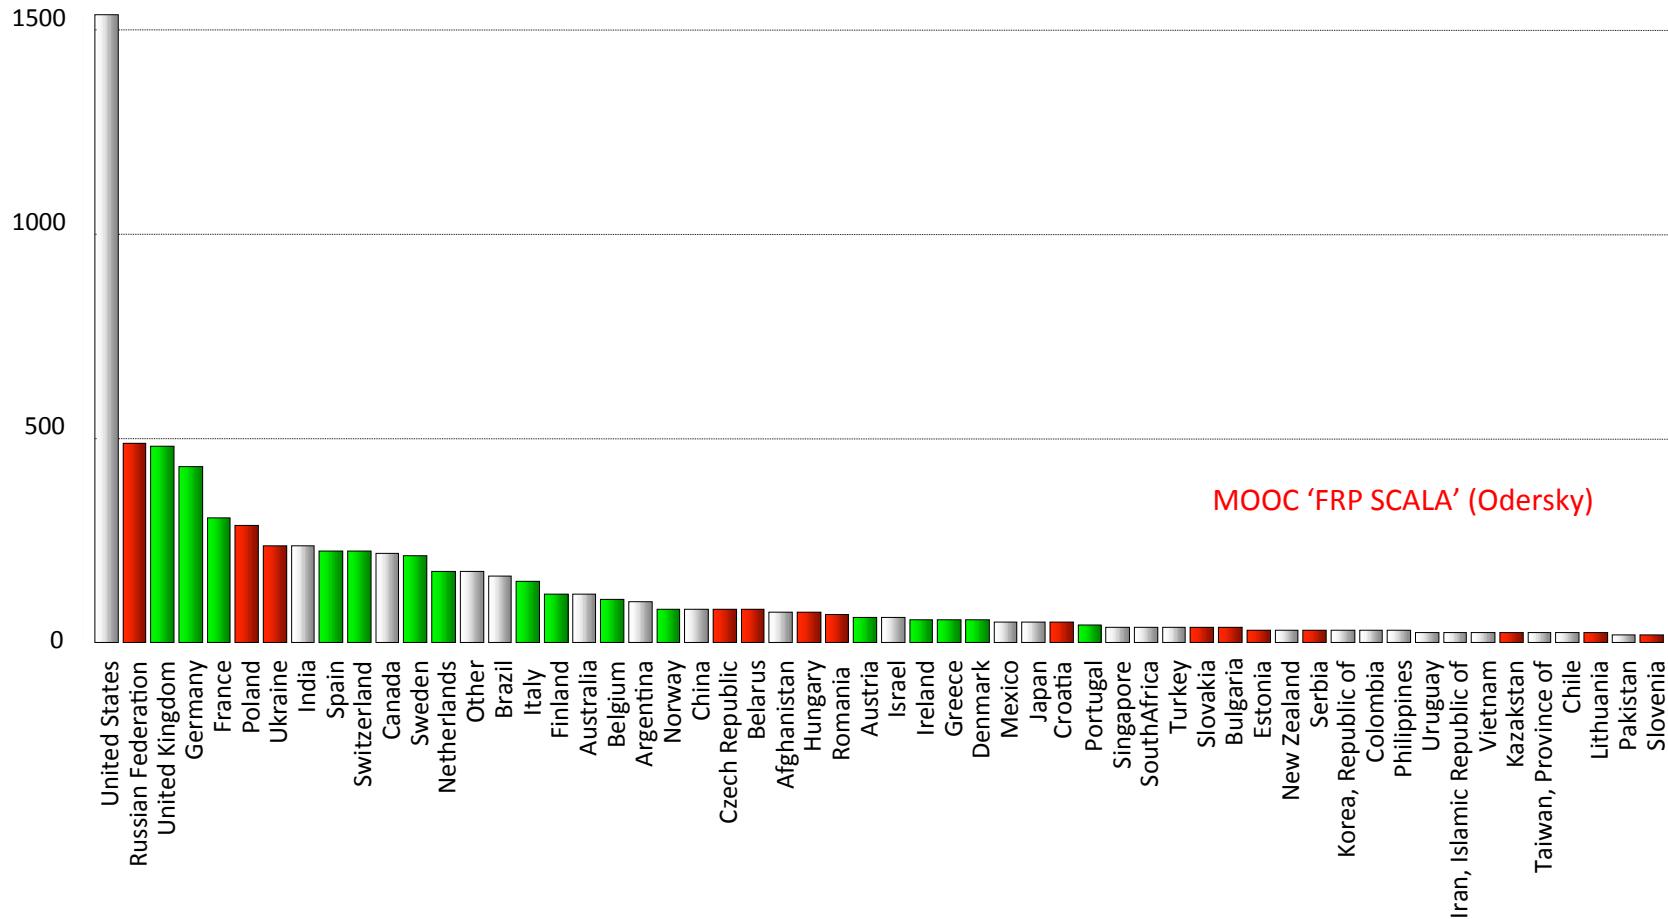

«In the future, I would prefer to take this course.... »

We got surprises ...

PARTICIPANTS' HIGHEST DEGREES

Europeans are on board (in green)

We got problems ...

1. Plagiarism is massive
2. Students fear a loss of contact
3. Flipped classes are difficult to set up
4. Managing both internal & external students
5. The workload frightens teachers
6. Students criticize data owned by platforms

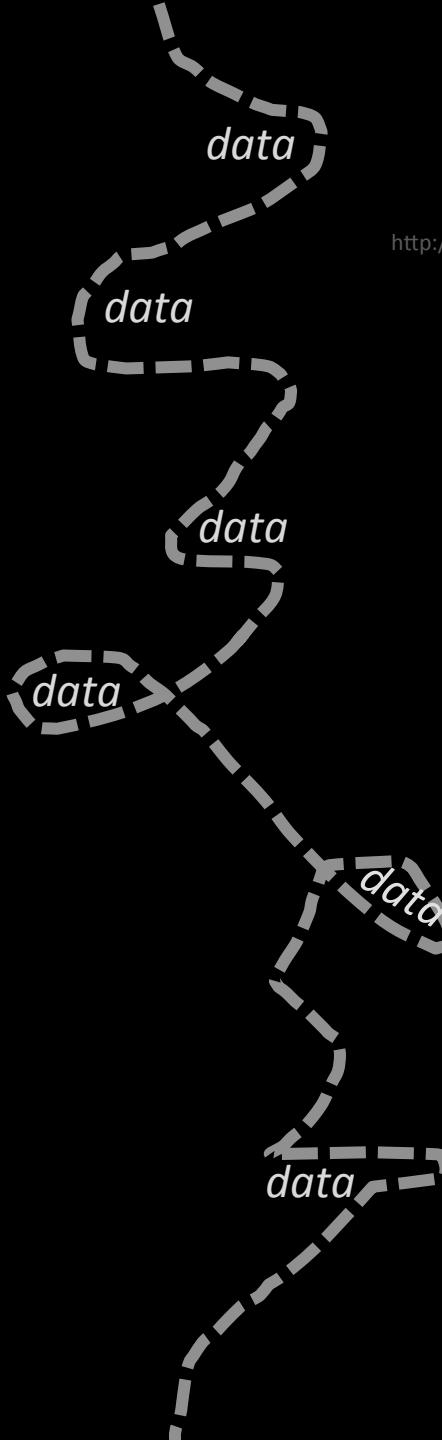

MOOCs European Stakeholders Summit:

Indeed, the MOOC landscape is a MESS²⁰¹³ ...
Shouldn't we, Europeans, meet & discuss?

European MOOCs Stakeholders Summit

What are the strategies of the European universities?

Why do they engage in MOOCs?

In which languages are they produced?

How effective have been the first experiences in Europe?

Why would Europe need its own platform?

How to build upon existing online learning activities?

What about Bologna credits ?

What is the impact on mobility of European students?

Which research initiatives should be launched in Europe?

What are the new business opportunities?

An example: an European Exam Network ?

The screenshot shows the homepage of the University of Helsinki Department of Computer Science. The header features a stylized flame logo and the text "Department of Computer Science". Below the header, a banner states: "The Department of Computer Science is responsible for teaching and research in computer science at the University of Helsinki." The menu includes links for Home, Research, Studies, Prospective Students, Alumni, Administration, Computing facilities, People, and Contact. On the right side, there's a search bar, language links for Suomi and English, and the text "UNIVERSITY OF HELSINKI FACULTY OF SCIENCE". A large, tilted text overlay on the right side reads: "Functional Programming Principles in Scala, Martin Odersky's MOOC available for our students". Below this, smaller text provides details about the course: "Prof. Martin Odersky from EPFL (Lausanne, Sveitsi) hosts a MOOC in Scala programming (Coursera) starting on September 18: <https://www.coursera.org/course/progfun>". Further down, it says: "Pietu Pohjalainen, teacher at our department, follows the course and organizes a local evaluation (=exam) after the course. Successful completion is equivalent to our course Programming in Scala. Number of credits (ECTS) will be decided during the course; it will be equivalent to the workload according to our university's principles. The pre-announced effort estimate results the amount of credits to equal to 2 ECTS." At the bottom, it says: "To attend, first sign up to the course at Coursera web site. You'll receive the credit units after attending to the department's exam and you've shown the Coursera certificate to the instructor. (The deadline for the Coursera excercises is after the exam date). The exam time is at 16.11.2012 from 4 PM to 8 PM in classroom A111. Note! This is the only scheduled exam for the course!"

14:00 Session 1: “Tour d’Europe” : The University MOOCs Landscape • Chair: Pierre Dillenbourg

Austria (W. Nagler), Belgium (V. Blondel), Denmark (L. Stenbaeck), France (A. Mille), Germany (U. Cress), Italy (F. Fiumana), Netherlands (Shimson), Portugal (A. Soeiro), Spain (C. Delago-Kloos), Switzerland (P. Jermann), UK (J. Haywood)

16:00 Coffee break

16:30 Session 2. Supra-national strategies • Chair: Carlos Delgado Kloos

16:30 “Going pan-European ... with OpenupEd MOOCs”

Fred Mulder (Chair EADTU Taskforce on Open Education, UNESCO Chair in OER at OUNL)

17:00 Panel of Associations and Networks

Michael Gaebel, European University Association

Alfredo Soeiro, European Continuing Education Network

Olivier Küttel, Eurotech

Yves Epelboin, European University Information Systems Organization

Fred Mulder, OpenUpEd initiative

17:45 Session 3. Corporate strategies • Chair: Karl Aberer

Panel with

Johannes Heinlein, EdX

Matthew Shorter, FutureLearn

Pedro Aranzadi, Miriadax (tbc)

Pan Wei Koh, Coursera

Michel Benard, Google

Volker Zimmerman, IMC

DAY 2

09:00 On which points could we benefit from mutualizing our efforts ?

WG1 “Europeanism or Platformism?” • Chair: Michaël Gaebel (BC 329)

Does Europe need a specific approach to MOOCs?

Does a national or European strategy require a specific platform?

How could Europe take advantage of its multiculturalism and multiple languages?

Is a MOOC translated in language X as effective as a MOOC recorded in language X?

WG2 “Bologna 2.0?” • Chair: Pierre Dillenbourg (BC 229)

Under which conditions should a university give credits for MOOCs certificates?

Should MOOCs activities be counted with the same currency as university courses (ECTS)?

Could EU universities locally run proctored exams from MOOCs produced by partner universities?

Are MOOC platforms exclusive? How to achieve interoperability?

WG3: “University strategies” • Chair: Karl Aberer (BC 01)

How do MOOC impact on European Universities today? And tomorrow?

What business models underlie MOOC initiatives in our universities?

Which synergies could be identified across universities?

How are MOOCs managed internally: selection, production, incentives, quality control,...?

WG4: “Disruption or Continuity?” • Chair: Ulrike Cress (BC 010)

How to handle both on-campus students and worldwide students in the same MOOC ?

Do MOOCs blur the frontier between initial and continuing education?

Do MOOCs blur the frontier between standard and distance universities? How to collaborate?

How to build upon existing European experience and technologies for online education?

DAY 2

- 10:30 Coffee break
- 10:45 Working groups continue
- 12:00 Report from working groups and discussion (BC 01)
- 13:00 *Lunch (optional)*
- 14:30 *Parallel sessions (optional)*

Program committee for the fall conference (BC 410)

Presentations/demos of MOOC platforms by corporate actors (BC 329)

- 16:00 End

European Mooc Summit 2014
