TU/e is currently investigating which platform to use.
Current university initiatives:
- University of Amsterdam  (SAKAI)
- Leiden University  (Coursera)
- TU Delft  (edX)
- Open University Netherlands  (own platform / cMOOCs)
- TU/e  (investigating platform use)
- Others / VSNU  (exploring various options)

Different new corporate players: e-learning market
- De Universiteit
- De Universiteit van Nederland

Professional learning players
.. Many but unclear how professional learning and e-learning business will develop based on this

Research programs
- Leiden University: Learning about Learning (PHD Track/AB Testing/ Evaluation and VREs)
- TU delft: Open courseware

Corporate actors
- Cap Gemini
- Kahn Academy Netherlands
MOOCs at Leiden University

Per June 2013
• Introduction to EU Law (go live on Monday 😊)

Per September 2013
• Terrorism and Counterterrorism: comparing theory and practice

Academic year 2013/2014
• 6 MOOCs online

Leiden University offers its MOOCs on the Coursera Platform
MOOCs in DelftX

Per September 2013

• Solar Energy
• Introduction to Waste Water Treatment

Per February 2014

• Aerospace Engineering
• Fourth MOOC to be chosen through a tender

Delft University of Technology offers its MOOCs in the edX-platform under DelftX
Università degli Studi di Padova
Contact with Coursera and

Università degli Studi di Napoli
Federico II:
Own platform
Italy

- Evaluation of developing a European Pilot project: MOOC analysis and experimentation
- Expression of interest
- Regional Consortium to develop courses and provide support to universities in the region
- University Master dealing also with Mooc topic
- Participation to Mooc Production fellowship 2013 by iversity and Stifterverband für die Deutsche Wissenschaft
  [https://moocfellowship.org/](https://moocfellowship.org/)
- Mooc project under discussion at the university level
Austria

• **Host: COER13** - MOOC about OER ([http://coer13.de](http://coer13.de))
  Graz University of Technology in cooperation with 5 German organisations/universities

• **Platform: e-genius** - OC project of Vienna University of Technology ([http://www.e-genius.at/](http://www.e-genius.at/))

• **Applicants: Zukunftsfond Steiermark** - styrian government supported project initiative
  Graz University of Technology in cooperation with Graz University and iUNIg

• **Applicants: MOOC-Fellowship** - German MOOC initiative ([https://moocfellowship.org/](https://moocfellowship.org/))
  Graz University of Technology in cooperation with Salzburg Research and BIMS ev.
  University of Innsbruck in cooperation with Universitätsmedizin Mainz

• **Prototypes of MOOCs**: Graz University of Technology starting summer 13´ - restricted
  Graz University starting autumn 13´ - restricted

  • Khalil, H., Ebner, M (2013) "How satisfied are you with your MOOC?" - A Research Study on Interaction in Huge Online Courses, in: Proceedings of ED-Media 2013, accepted, in print

Portugal

IP Santarém

MOOC EaD
(Portuguese-Brazilian pioneer initiative)

Universidade Aberta (UAb)

IMOOC OpenupEd
• Universidade AbERTA (UAb) has developed iMOOC, the first institutional pedagogic model for MOOCs in the world. The model, which is multi-platform, incorporates elements from existing MOOCs but adds new features which derive from its experience with online learning, as well as the work done in OER. This innovative approach to learning although disruptive in its format, is coherent with the institution’s pedagogic principles and practice.

• UAb is offering a course on Climate Change based on OER produced by the LECH-e EU-funded project. The IP Santarém has delivered a course on school bullying.

• Other initiatives in advanced preparation are Lisbon NOVA University’s course, based on an existent Master on e-learning, and a Ministry of Education – DGE’s initiative on teacher training. ME-DGE will also offer all teachers a free webinar on MOOCs. This will be available in June.
Major universities are considering joining different global platforms, but based on their traditional institutional alliances. University of LISBON (UL) – IST is approaching edX, others may join Universia’s Miríada X.

The University of PORTO is preparing two courses for Coursera or an alternative platform. The courses are based on previous e-learning courses that have good records in terms of attendance and retention rates. The topics envisaged are Cyber security/Privacy and Big Data Analytics/ Knowledge Discovery.

ISQ, the national standards agency, in the framework of its committee CT187 is producing the first set of standards for MOOCs.

Great public interest (over 5,000 students are registered on edX, 1,000 on iMOOC and over 25% of OpenupEd visits originated from Portugal).
University of Edinburgh, Coursera member since June 12, 6 MOOCs delivered Feb 13, ~12 more in development Data analysis report at: http://edin.ac/YWGDdK

Scotland – interest emerging in MOOCs and OER. Event planned by interested parties 2013.

Edge Hill University, “Vampire Fictions”, On BlackBoard CourseSites, announced 2013

Wales – interest emerging in MOOCs and OER. Ministerial working group established 2012.

FutureLearn is a startup company owned by the UK OU; a partnership of 21 leading UK universities and several prestigious partners from the UK cultural sector, offering free open online courses starting late 2013.

University of London International Programmes, Coursera member since July 12, 5 MOOCs to be delivered June 13, 1 in development

University of London International Programmes, Coursera member since July 12, 5 MOOCs to be delivered June 13, 1 in development

Coventry Open Media Courses – Four online courses delivered and in delivery over the previous two years. JISC supported.

Oxford Brookes – First Steps In Learning and Teaching (ran 2012 and 2013). Jisc supported

Oxford Edge Hill University, “Vampire Fictions”, On BlackBoard CourseSites, announced 2013

Wales – interest emerging in MOOCs and OER. Ministerial working group established 2012.

FutureLearn is a startup company owned by the UK OU; a partnership of 21 leading UK universities and several prestigious partners from the UK cultural sector, offering free open online courses starting late 2013.

University of London International Programmes, Coursera member since July 12, 5 MOOCs to be delivered June 13, 1 in development

Sheffield–University 5 Health sciences courses.; On BlackBoard CourseSites, announced 2013

Sheffield–University 5 Health sciences courses.; On BlackBoard CourseSites, announced 2013

OLDSMOOC – learning design mooc based at the Open University. Ran 2012. Jisc supported. OER MOOC – about OERs Design - ran April 2013. OU supported.
UK Higher Education Initiatives Relating to Open Education & Technology

Association for Learning Technology (ALT)

Universities UK – conference and position paper on MOOCs -
http://www.universitiesuk.ac.uk/highereducation/Pages/MOOCsHigherEducationDigitalMoment.aspx

English, Scottish & Welsh Governments all have informal working groups on online learning

Several conferences with MOOCs/open learning/online learning as subject – Quality Assurance Agency, Guardian HE Conference, British Council, UKK Online Education conference

UKOER - "The Jisc/Academy UKOER programme has developed and supported a large and sustaining community of interest around open education in the UK. Alongside a wide range of high quality resources (available from Jorum and elsewhere), the programme has developed advice and guidance in the form of an InfoKit, specific support around IPR and technical issues, and a detailed evaluation". CETIS has published a MOOC report

OERxx - "The open education community in the UK runs a series of "OER" conferences. These are self-supporting and again demonstrate the strength of the community".

OLTF - "In 2010, the UK Government and Funding Councils commissioned a report into opportunities for the expansion of the UK online learning offer. Though a change of government meant most of the planned funded work was not taken forward, the supporting documents to the review - in particular an Oxford/Jisc led report into the current UK online learning offer - provide a valuable background"
Launched Moocs

05/13

[10]
Soon Announced Moocs (in the pipe) 10/13
FRANCE

« work in progress » Moocs

2014

[26- ??]
FRANCE

• National Institutions
  – CNRS, research network and pilot operation (Lyon -> design based research)
  – INRIA (Platform, Moocs, specific researches)
  – Ministry (National and European Portal, Digital Universities Moocs, Higher Education Moocs support, open resources for Moocs)

• Institutions of Higher Education
  – Several pioneers (Brest-Nantes, Lille, Paris,...) with a significant success while launching their Moocs -> sharing their experience and enthusiasm 😊
  – Most of the institutions of higher education are « thinking » of Moocs, and some of them are checking the concept
  – A variety of platforms... (“proprietary”, coursera, canvas, ...)
  – From rather simple xMoocs to sophisticated cMoocs

• Corporate
  – Orange (Platform, co-developed Moocs)
  – Simple-IT (co-developed Moocs, open resources)
  – A growing number of consulting firms on the subject
Switzerland

- Eduhub Community
  - 5 universities out of 12 have a MOOC project
  - Annual event in January on MOOCs
- University Strategies
  - Internal and External audiences
  - Video resources and flipped classrooms
- Platforms in Universities
  - #1 Moodle, Ilias, OLAT
  - coursera and edX
- Program “Information scientifique”
  - 100/250 use cases about eLearning
    - 19 PLE, 18 e-Assessment, 14 Mobile
    - 8 MOOCs, 11 Video Management

Finnish Universities

Aalto University

OPTIMA University of Lapland

University of Oulu

University of Vaasa

University of Jyväskylä

Tampere University of Technology

University of Tampere

University of Turku

Åbo Akademi University

Aalto University

FINNISH NATIONAL DEFENCE UNIVERSITY

HANKEN SCHOOL OF ECONOMICS

University of Helsinki

University of the Arts Helsinki
OCW - Open Courseware

There is no national level platform for Open courseware. Open/free materials in are distributed via Universities’ own portals.

Only Finnish member in OCW consortium, Helsinki Metropolia University of Applied Sciences (http://ocw.metropolia.fi).
MOOCs – Massive Open Online Courses

No Finnish Universities part of Coursera, MITx, Udacity or other well known MOOC platforms.

Aalto course on WEPS (World Education Portals) https://myweps.com/

3 MOOCs in University of Helsinki http://mooc.cs.helsinki.fi/
Individual teachers and professors do give open online courses in different platforms like Wikiversity, Open University
Portals, platforms and initiatives

Platform for open learning material distribution developed in Aalto LeMill [http://lemill.net/](http://lemill.net/)

Initiative from group of Aalto teachers to make MOOCs possible also in Aalto University
