Do you want to migrate your content from Jahia to WordPress
no
yes
Is the content of your website entirely hidden behind a login?
Have you received an email asking you to check your accreditation details?
no
Contact wp-migration@epfl.ch
yes
Do you want to migrate your content from Jahia to WordPress?
yes
no
ok
In the case of an entire website accessible only under connexion, a migration process is currently being organized and a solution will be suggested soon.
In the case of only some files or pages accessible under connexion, it is not possible to keep such detailed restricted access in WordPress.
For such case, we invite you to use an electronic document management system such as SharePoint, and to migrate your website to WordPress.
yes
Have you replied to the email asking you to check your accreditation details?
no
Please answer the email
yes
Only you can correct your content layout.
In case of questions, please contact 1234@epfl.ch
Your website content can be migrated from Jahia to WordPress
yes
Is the content weirdly displayed or show some problems (not enough / too many space, titles too small, strange font, etc.)?
yes
Have you received an email asking you to check your content migrated on WordPress?
no
Please be patient, this email will reach you soon.
ok, done
no
Your website content can be migrated from Jahia to WordPress
Please reply to wp-migration@epfl.ch to confirm the migration
no
Is some content missing or do some elements have disappeared?
yes
Please let the team know via the "provide feedback" button on your WordPress website. The project team will handle the bugs and get back to you.
